II UPDATE ON OPTIC NERVE DEGENERATION

☀ A European Network

17–18 March 2017, Barcelona Spain

PROGRAM 17 MARCH 2017

08:00–09:00 ACCREDITATION

09:00–09:30 CONGRESS OPENING

OPTIC NERVE IN PRIMARY NEURODEGENERATIVE DISORDERS

Chairpersons: Philipp Albrecht & Piero Barboni

09:30–09:50 APOSTEL: consensus recommendations for reporting of quantitative optical coherence tomography study results
Philipp Albrecht

09:50–10:10 Visual afferent damage in patients with REM Behavior Disorder
Ana I Tercero-Uribe

10:10–10:40 New insights into Parkinson's disease and eye
Alexander U Brandt

10:40–11:10 The eye: a window to the brain also for Alzheimer's Disease?
Luis E Pablo

11:10–11:40 COFFEE BREAK

11:40–12:10 KEYNOTE LECTURE
Immune-mediated disorders involving retina and optic nerve
Francesc Graus

12:10–13:10 SYMPOSIUM BIOGEN
Neuroprotection in MS: Targeting inflammatory activity effectively from the onset
Elena H Martinez-Lapiscina & Pablo Villoslada

12:10–12:40 The complex relationship between neurodegeneration, demyelination and inflammation: influence in the clinical outcome
Pablo Villoslada

12:40–13:10 Targeting inflammation from the onset: evidences from studies focused on the damage through the visual afferent pathway
Elena H Martinez-Lapiscina

13:10–14:10 LUNCH BREAK

OPTIC NERVE IN IMMUNE-MEDIATED NEURODEGENERATIVE DISORDERS

Chairpersons: Elena H Martinez-Lapiscina & Giancarlo Comi

14:10–14:30 Visual assessment in clinical practice in MS and NMOSD
Bernardo Sanchez-Dalmau

14:30–14:50 Optic neuritis in NMOSD
Maria Sepúlveda

14:50–15:10 CROCTINO Study: towards clinical advances in NMOSD
Hanna Zimmermann

15:10–15:30 Role of demyelination in MS: VEP as surrogate outcome to measure myelin repair strategies in MS
Letizia Leocani

15:30–15:50 PATROCINADO POR NOVARTIS
RNFL assessment in multiple sclerosis: update on current studies and longterm predictive value based on the fingolimod trial program
Diego G Silva, Medical Director, Novartis AG, Switzerland

ACUTE OPTIC NEURITIS AS A PARADIGM FOR PHASE II RCT IN MS AND NMOSD

Chairpersons: Bernardo Sanchez-Dalmau & Letizia Leocani

15:50–16:10 Natural history of acute optic neuritis
Jette Frederiksen

16:10–16:30 Remyelination and Neuroprotection strategy
Pablo Villoslada

16:30–16:50 Meta-analyses in AON trial: towards a standardization of outcomes
Elena H Martinez-Lapiscina

17:00–17:30 SYMPOSIUM OPKO HEALTH SPAIN
Neuroprotective and neuroregenerative properties of citicoline: an opportunity for ocular neurodegenerative pathologies
José Álvarez Sabín, Rafael Simó

PROGRAM 18 MARCH 2017

GLAUCOMA

Chairpersons: Augusto Azuara-Blanco & Francesca Cordeiro

- 09:00–09:30 KEYNOTE LECTURE
Evaluating the effectiveness of novel interventions for glaucoma. Methodology and design of randomised controlled trials
Augusto Azuara-Blanco
- 09:30–09:50 The lamina cribrosa as the primary site of glaucoma damage
Gema Rebolleda
- 09:50–10:10 Neuroprotection in Glaucoma: Current strategies and future directions
Francesca Cordeiro
- 10:10–10:40 Surgery for Glaucoma
Maribel Canut
- 11:40–11:00 COFFEE BREAK

HEREDITARY OPTIC NERVE DISORDERS

Chairperson: Valerio Carelli & Thomas Klopstock

- 11:00–11:20 Management of patients with suspicious of hereditary optic nerve disorders
Carmen Ayuso
- 11:20–11:35 Pediatric hereditary optic neuropathies
Marta Galdós
- 11:35–11:55 New frontiers on vascular supply in hereditary optic neuropathy
Piero Barboni
- 11:55–12:10 Inherited optic neuropathy: enlarging the genetic landscape
Valerio Carelli
- 12:10–12:30 Update on dominant optic atrophy
Marcela Votruba

- 12:30–13:15 SYMPOSIUM SANTHERA
Leber's Hereditary Optic Neuropathy (LHON):
What to do today in terms of diagnosis and patient management
Gema Rebolleda

- 12:30–12:45 Chairman introduction
Gema Rebolleda
- 12:45–13:00 Understanding of the disease and early diagnosis
Bernardo Sanchez-Dalmau
- 13:00–13:15 Patients Care: Raxone, the new treatment option for LHON's patients
Thomas Klopstock
- 13:15–14:15 LUNCH BREAK

IMMUNE MEDIATED OPTIC NEUROPATHIES

Chairpersons: Bernardo Sánchez-Dalmau & Jérôme de Sèze

- 14:15–14:40 Immune-mediated optic neuropathies: RION and CRION
Jérôme de Sèze
- 14:40–14:55 Role of GQ1b R in optic nerve
Marianna Spatola
- 14:55–15:10 Role of GlyR in optic nerve
Eugenia Martínez Hernández

INNOVATION FOR RETINAL AND OPTIC NERVE ASSESSMENT

Chairpersons: Pablo Loza & Alexander U Brandt

- 15:10–15:30 New devices for retinal and optic nerve assessment
Brian Fernández
- 15:30–15:50 Optic properties of retinal structural imaging by optical coherence tomography
Delia DeBuc
- 15:50–16:10 New optic-based technologies to evaluate retinal damage
David Merino
- 16:10–16:30 New approaches for mfVEP signal analyses
Luis de Santiago Rodrigo
- 16:30–16:50 Modern tools to study neuroprotection in the adult rodent retina
Manuel Vidal-Sanz
- 16:50 CLOSING REMARK

INVITED SPEAKERS

Albrecht, Philipp – Düsseldorf, Germany
Álvarez Sabin, José – Barcelona, Spain
Ayuso, Carmen – Madrid, Spain
Azuara-Blanco, Augusto – Belfast, UK
Barboni, Piero – Milan, Italia
Brandt, Alexander U – Berlin, Germany
Canut, Maribel – Barcelona, Spain
Carelli, Valerio – Bologna, Italy
Comi, Giancarlo – Milan, Italy
Cordeiro, Francesca – UK
DeBuc, Delia – Miami, FL, US
De Sèze, Jérôme – Lyon, France
De Santiago Rodrigo, Luis – Madrid, Spain
Fernández, Brian – Franklin, MA, US
Frederiksen, Jette – Copenhagen, Denmark
Galdós, Marta – Bilbao, Spain
Graus, Francesc – Barcelona, Spain
Klopstock, Thomas – Múnich, Alemania
Leocani, Letizia – Milan, Italy
Loza, Pablo – Barcelona, Spain
Martinez-Hernández, Eugenia – Barcelona, Spain
Martinez-Lapiscina, Elena H – Barcelona, Spain
Merino, David – Barcelona, Spain
Pablo, Luis E – Zaragoza, Spain
Rebolleda, Gema – Madrid, Spain
Sanchez-Dalmau, Bernardo – Barcelona, Spain
Sepulveda, Maria – Barcelona, Spain
Silva, Diego G – Basel, Switzerland
Simó, Rafael – Barcelona, Spain
Spatola, Marianna – Barcelona, Spain
Tercero-Uribe, Ana I – Barcelona, Spain
Vidal-Sanz, Manuel – Murcia, Spain
Villoslada, Pablo – Barcelona, Spain & San Francisco, CA, US
Votruba, Marcela – Cardiff, UK
Zimmermann, Hanna – Berlin, Germany

**VISUAL
PATHWAY+LAB**

CLÍNICA
BARCELONA
Hospital Universitari

GENERAL INFORMATION

MISSION

EUPON inspires European multidisciplinary collaborations to further the knowledge in ophthalmological and neurological optic nerve pathologies.

VISION

To be a European reference and lead international efforts in diagnostic, therapeutic and research strategies involving optic nerve.

TARGET AUDIENCE

Ophthalmologist, Neurologist, Engineers working in Biomedicine, Optometrists, Nurses

REGISTRATION FEES (VAT INCLUDED)

Ophthalmologists, Neurologists, Genetists	200,00 €
Optometrist, Nurses	100,00 €
Students in Medicine	100,00 €

(Ophthalmology - Neurology,
Upon presentation of specialization certificate)

- Please register online at www.eupon.org
- The Registration fee includes the conference kit and admission to all the scientific sessions
- Attendance to all scientific sessions is limited to seats availability

ORGANIZED BY

Dr. Elena H Martinez-Lapiscina & Dr. Bernardo Sanchez-Dalmau

on behalf of The Visual Pathway Lab part of Hospital Clinic of Barcelona & Institute of Biomedical Sciences August Pi i Sunyer

www.neuroimmunologybcn.org/research/visual-pathway-lab/index

ACCREDITATION

Accredited by the "European Accreditation Council for Continuing Medical Education" (EACCME) with 10 European CME credits

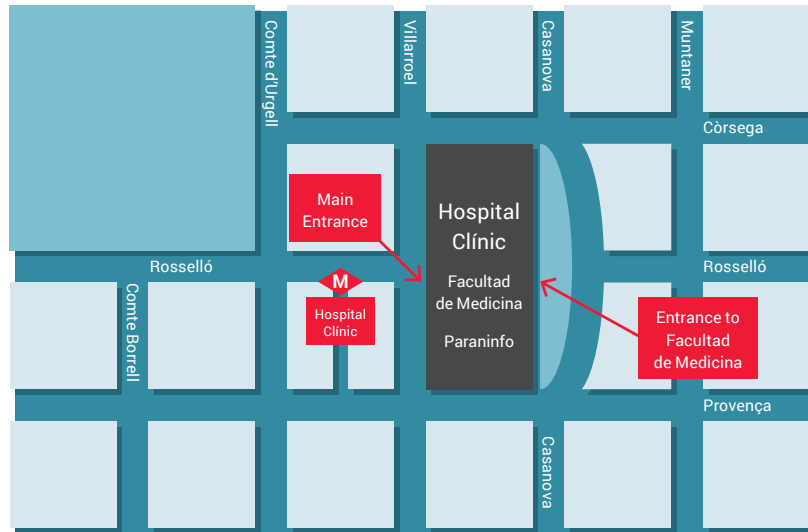

ENDORSED BY

redEspañolade
esclerosismúltiple

VENUE

Paraninfo de la Facultat de Medicina de la UB
C/ Casanova 143, 08036 Barcelona

SPONSORS

DIAMOND

PLATINUM

GOLD
